A Study on the Effect of the Length of Cloze Passages on the Reading Comprehension Scores of Ninth Grade Students-Linda L. Mitchell 1980

Timed Readings-Edward Spargo 1989 Do your students fail to even finish a timed test? Do they read word by word? Do they simply move their eyes over the page, never remembering what they read? If you suspect that students’ test scores are being confounded by any of these traits, or if you have students who need to process greater amounts of information, the Timed Readings books can help. For over thirty years, Jamestown has been helping students increase their reading rate and fluency while maintaining comprehension. Timed Readings is the original series of timed reading books; 400-word nonfiction timed passages in science, social studies, the humanities, and more.

The Pit and the Pendulum-Edgar Allan Poe 2019-05-27 The Pit and the Pendulum is a short story written by Edgar Allan Poe and first published in 1842. The story is about the torments endured by a prisoner of the Spanish Inquisition, though Poe skews historical facts. The narrator of the story is deemed guilty for an unnamed crime and put into a completely dark room. He passes out while trying to determine the size of the room. When he wakes up, he realizes there is a large, deep pit in the middle of the room. He loses consciousness again and awakens strapped on his back, unable to move more than his head. He soon realizes there is a large blade-like pendulum hanging above him, slowly getting closer to cutting through his chest. He finds a way to escape but the walls of his prison start to move and close in on him, pushing him closer and closer to falling into the pit. The story is especially effective at inspiring fear in the reader because of its heavy focus on the senses, such as sound, emphasizing its reality, unlike many of Poe’s stories which are aided by the supernatural. The traditional elements established in popular horror tales at the time are followed but critical reception has been mixed.

The Effects of Using an IPad on the Development of Reading Comprehension Skills for a Student with Severe to Profound Developmental Disabilities

Jill Vehrenkamp

2012

The purpose of this case study was to examine the effects of using an interactive story and questions on an iPad to improve reading comprehension skills. The student received instruction using both methods. To determine the effectiveness of each, the percentage of questions answered correctly were compared between the two methods. Both methods included reading passages at a first grade reading level. Progress was monitored by observation and data collection of reading comprehension questions and grade level advances or regression. The study showed that using an iPad for reading instruction did increase comprehension better than the book format.
